**Prepared By:** Ken Quillen, AICP, Planner III

**Report Date:** August 5, 2015

**BZA meeting date:** August 12, 2015

---

**Requested Action/General Information:**

Stephen and Kimberly Gunn are requesting a special exception to allow a Home Occupation, consisting of boarding and breeding New World Monkeys, in the Residential Single-family-3.5 (RSF-3.5) zoning district. Subject property is located at **396 Barger Drive** in Port Charlotte (see attached **Location Map**). The attached **Zoning Map** shows the zoning of this property, which is Residential Single-family-3.5 (RSF-3.5). This property has a Low Density Residential Future Land Use Map (FLUM) designation.

**Section 3-9-33** (Exhibit A) regulates uses in the Residential Single-family zoning districts and allows a Major Home Occupation as a special exception use if operated in accordance with the home occupation regulations. The home occupation regulations in **Section 3-9-74** (Exhibit B) state that: "It is the intent of this section to allow the operation of Home Occupations as an accessory use to the primary use in any residential dwelling unit and to regulate them so that a neighbor, under normal circumstances, will not be disturbed or inconvenienced." This section also lists the requirements, which must be met for the operation of a home occupation. The applicants have stated that they will abide by all conditions required by this section for a Major Home Occupation.

According to the Florida Fish and Wildlife Conservation Commission (FWC) Kimberly Gunn obtained a Class III Personal Use Permit in December of 2014, to allow her to keep one Marmoset Monkey as a personal pet. In 2015 Kimberly Gunn was issued a **License** (Exhibit C), by the FWC under the business name of Monkey Business S.W. Florida LLC, to Possess Class III Wildlife for Exhibition or Public Sale, which allows the keeping, breeding and selling of Class III Wildlife. The applicant would like to breed up to six pairs of new world or "Finger" monkeys.

The applicant has submitted the attached **Site Plan** (Exhibit D-1), showing the existing residence (2,466 square foot), garage, lanai, shed, and other improvements located on this 20,000 square foot double lot. The applicant intends to keep six breeding pairs of New World Monkeys in three cages on their lanai. Each of the cages consists of two living spaces and is mounted on wheels so the cages can be easily moved for cleaning. Each cage is 8' by 5'-6" (44 sq. ft. each, 132 square feet total) and divided with a wall into two living spaces, each 4' by 5'-6". According to the applicant there will be six living spaces, five for breeding pairs of Marmosets (for more info see Wikipedia <https://en.wikipedia.org/wiki/Marmoset> ) and one breeding pair of Cotton-Top-Tamarins (for more info see Wikipedia [https://en.wikipedia.org/wiki/Cotton-top\\_tamarin](https://en.wikipedia.org/wiki/Cotton-top_tamarin) ).

The applicant has submitted the attached **Floor Plan** (Exhibit D-2), showing the dimensions of the home and the three cages located on the lanai. Home Occupation regulations limit the area within a home that may be used for a home occupation to a maximum of 20 percent. If the entire 465 sq. ft. lanai is used to calculate the area used for this home occupation ( $465 \div 2,466 = 0.1885\%$ ) this would result in less than 19 percent of the floor area being used for the home occupation. If only the area of each cage is used for this calculation ( $132 \text{ sq. ft.} \div 2,466 = 0.0535\%$ ) it would result in less than six percent of the floor area being used for the home occupation.

The applicant has also submitted the attached **Narrative** (Exhibit E-1) explaining what they are intending to do and why they believe a special exception should be granted. They have also submitted a **Letter** (Exhibit E-2) from their Veterinarian Dr. Alexander Villarreal, DVM regarding the applicant's care for their current pet monkeys.

The Community Development Department's Environmental Specialist has performed a cursory review and their comments are in the attached **Memorandum** (Exhibit F) dated July 8, 2014.

Code requires two off-street parking spaces for a single-family residence. This residence has an existing two-car garage and a driveway, which has room for at least two more vehicles. The applicant has stated in their narrative that no clients will be coming to the home; therefore parking should not be an issue for this proposed home occupation.

The Florida Fish & Wildlife Conservation Commission (FWC) does not require local government approval before they will issue permits or licenses to allow the keeping of Captive Wildlife. However, the United States Department of Agriculture (USDA) now requires approval by local governments prior to their issuance of any licenses to allow people to keep Captive Wildlife. The FWC does have extensive requirements for keeping Captive Wildlife including: categories of wildlife (Class I, Class II and Class III); applications; permits; licensing; record keeping; **Veterinary Care** (Exhibit G); facilities and structural caging; safety; and **Disaster Plans** (Exhibit H).

- Access the FWC web page for more info at: <http://myfwc.com/license/captive-wildlife/>
- Access Florida Administrative Code, Chapter 68A-6, "Wildlife as Personal Pets" (34 pages) at: <https://www.flrules.org/gateway/ChapterHome.asp?Chapter=68A-6>

**Findings:** The three standards for approval for a Special Exception according to Section 3-9-6.2(i) of the Charlotte County Zoning Code are as follows:

1. The proposed special exception is consistent with the Comprehensive Plan.

Finding: The use will continue as a single-family residence and the proposed home occupation is consistent with the **Smart Charlotte 2050 Plan** and Future Land Use classification of Low Density Residential. The proposed home occupation may be permitted with a special exception according to the Land Development Regulations.

2. The proposed special exception is compatible with existing and permitted uses surrounding the land on which the proposed special exception would exist.

Direction	Existing Land Uses	Existing Zoning	FLUM Designation
North	Vacant lots	Residential Single-family-3.5	Low Density Residential
South	Vacant lots	Residential Single-family-3.5	Low Density Residential
East	Como Waterway and Toledo Blade Blvd.	Commercial	Commercial
West	Single-family home and vacant lots	Residential Single-family-3.5	Low Density Residential

Finding: The surrounding land uses consist primarily of vacant lots intended for future single-family residences and this property will continue to be used as a single-family residence. This existing single-family residence is a permitted principal use, which is compatible with the surrounding residential land uses and it does not appear that there will be any detrimental attributes, such as, excessive noise or odors from the proposed home occupation.

3. The establishment, maintenance, or operation of the proposed use shall not be detrimental to or endanger the public health, safety or general welfare.

Finding: Staff believes that the addition of the proposed home occupation, consisting of boarding and breeding of 12 New World Monkeys, as an accessory use would not be detrimental to or endanger the public health, safety or general welfare of the surrounding single-family residences. The State of Florida, through FWC, does have adequate safeguards in place to protect the public health, safety and general welfare of the public, as well as, the animals.

**ANALYSIS AND CONCLUSIONS:**

After review of subject property and the application requesting this special exception staff believes that the proposed home occupation does meet the three criteria for granting a special exception.

If the Board of Zoning Appeals decides to approve the requested special exception staff recommends the following conditions be adopted, as conditions of approval, to ensure the use is in compliance with the purpose and intent of the Zoning Code. The conditions are as follows:

1. This special exception shall allow a home occupation, consisting of the boarding and breeding of no more than 12 New World Monkeys (six pairs) only as an accessory use to the existing single-family residence.
2. The monkeys shall be kept in appropriate cages on the lanai or inside the home and there shall not be any outdoor kennel or cages associated with this home occupation.
3. Detailed records shall be kept permanently for each monkey ever kept at this residence, including but not limited to: name, address, contact information of date and whom the animal was acquired from; condition of animal upon arrival; species; how animals are identified (e.g. tags, names, tattoos, microchip, etc.); birth dates; date of sale and contact information on who takes an animal; date deceased if applicable; and a photograph of the animal. These records shall be made available to Charlotte County Animal Control Officers upon request.
4. Inspections shall be allowed by Charlotte County Animal Control Officers without notice or in response to a complaint.
5. This special exception, allowing a home occupation, shall be conducted according to these conditions as well as all of the standards and conditions of **Section 3-9-74** of the Land Development Regulations, as amended.
6. Any major modifications, or change in the type of home occupation conducted, shall require a modification to the special exception. Minor changes or additions such as accessory uses or structures may be approved by the Zoning Official.

**Please be advised that the final decision regarding the petition rests with the Board of Zoning Appeals, and will be decided upon consideration of all the evidence introduced at the hearing.**

**Section 3-9-33  
(Exhibit A-2)**

**Section 3-9-74**

**Home Occupations.**

(a) *Purpose and Intent.* Some types of work can be conducted at home with little or no effect on the surrounding neighborhood. It is the intent of this section to allow the operation of Home Occupations as an accessory use to the primary use in any residential dwelling unit and to regulate them so that a neighbor, under normal circumstances, will not be disturbed or inconvenienced. The following regulations are intended to allow residents to engage in a Minor or Major Home Occupation while ensuring that it does not become a detriment to the character and livability of the surrounding area.

(b) *General Conditions for Home Occupations.* The following conditions must be met and complied with by all operators of any Home Occupation.

- (1) Home Occupations shall be subordinate to the allowed principal residential use.
- (2) Home Occupations shall be conducted only by a resident of the principal dwelling unit.
- (3) No more than 20 percent of the gross floor area of a dwelling unit may be devoted to a Home Occupation.
- (4) The principal use of the dwelling unit shall at all times during the conduct of the Home Occupation remain residential.
- (5) Retail sales shall not be conducted on the premises, except via the internet, phone and mail.
- (6) No more than one non-illuminated wall sign, not exceeding two square feet in area, may be attached to the building. This sign must be on or next to the entrance.
- (7) There shall be no exterior indication that the dwelling is being used for any purpose other than a residence, other than an allowed sign. Examples of prohibited alterations include, but are not limited to, construction of parking lots, paving of required yards, or adding commercial-like lighting.
- (8) There shall be no outside storage of materials used in connection with the Home Occupation.
- (9) No equipment shall be used in connection with a Home Occupation which creates noise, vibration, glare, fumes, odors, electrical interference, or requires the storage of hazardous substances which are not typically incidental to a residential use.
- (10) Deliveries or pick-ups of items associated with Home Occupations shall generally be between the hours of 8:00 AM to 8:00 PM.
- (11) Any operator of a Home Occupation must obtain, and keep current for as long as the Home Occupation is in operation, a business tax receipt from the Charlotte County Tax Collector, also known as the "Local Business Tax Receipt".
- (12) The following uses shall be prohibited from being operated as a Home Occupation.
  - a. Any type of repair, assembly, or storage of vehicles or equipment (such as automobiles, motorcycles, marine engines, golf carts, lawn equipment or chain saws), or of large appliances, such as washing machines, dryers, and refrigerators, or any other work related to motor vehicles.
  - b. Any business where employees come to the site to be dispatched to other locations.

(c) *Minor Home Occupations.*

- (1) Minor Home Occupations include, but are not limited to, art or music instruction, Internet sales, professional or paraprofessional services, consulting, home-made crafting, artist studios, and home offices.
- (2) A Minor Home Occupation is allowed, without the need for a Special Exception, provided it complies with all of the General Conditions established above as well as all of the following conditions.
  - a. The Minor Home Occupation shall register with the County.
  - b. No customers or clients may come to the home at any time, except for a Home Occupation consisting of art or music instruction, provided only one student at a time is receiving instructions.
  - c. Employees from outside the home are prohibited.

**Section 3-9-74****Home Occupations. (continued)****(d) Major Home Occupations.**

- (1) Major Home Occupations include, but are not limited to, beauty or barber shops, professional or paraprofessional services, consulting, animal grooming, and home offices.
- (2) A Major Home Occupation may be allowed as a Special Exception use provided it complies with all of the General Conditions established above as well as all of the following conditions and any conditions that may be added by the BZA.
  - a. No more than two customers or clients may visit the home at any one time.
  - b. Customers or clients may visit the home for purposes related to the Home Occupation between the hours of 8:00 AM and 8:00 PM, unless different hours of operation are set by the Special Exception.
  - c. In addition to residents of the home employed in the Home Occupation, the Board of Zoning Appeals may approve additional employees from outside of the home.
  - d. Additional off-street parking spaces may be required by the BZA.
  - e. The granting of a Special Exception to conduct a Major Home Occupation shall be automatically conditioned upon continued compliance with all the requirements of this section. Failure of the operator to meet these requirements shall empower the BZA to revoke the Special Exception after notice and a public hearing.
  - f. The approval of a Special Exception for a Major Home Occupation shall expire upon termination of the Home Occupation or a change in residency, whichever occurs first.
- (3) Riding lessons in RE zoning district.
  - a. The property must be located in the Rural Service Area.
  - b. No more than five students at a time are receiving riding instructions.
  - c. Shall also conform to subsections (d) (2) b., c., d., e. and f.
  - d. An accessory tack shop may be permitted.

## Application for Special Exception

We keep small new world monkeys, they weigh under 1 pound in weight when fully grown, about the size of a squirrel ( often called 'finger monkeys' ). These very popular pets are Marmosets and Cotton Top Tamarins, the later being an endangered species.

Although our monkeys are not yet breeding age, we would like to be able to sell the offspring in the future, never having more than 6 pairs of monkeys therefore being a very small scale breeder...

We have a Florida Fish and Wildlife state license ( 403-119023 ) and we comply with, and exceed, all state regulations relating to animal care, as well as USDA regulations - with a USDA application pending ( Richard Botelho 239-699-0530 )

We have completed a programme of veterinary care to USDA standards with a full veterinary inspection and we undertake quarantine, testing and regular veterinary supervision of our monkeys, cages, general area, diet, cleanliness and other aspects. Our veterinary can be contacted with any queries ( Alexander Villareal DVM, Collinswood Animal Hospital 941-625-7500)

The total cage area to house 6 pairs is only 134 square feet, the cages situated on our lanai, all cages being on wheels. The lanai is 465 sq. ft. in total area with the base square footage of the house being 1470 sq. ft, therefore total area utilized for the business is extremely small - less than 10% of overall.

There is no additional specialized storage of materials as small monkeys mostly eat fruit and vegetables just like humans, and cleaning materials are regular household cleaners..

No special equipment is used in the care of the animals, just cooling fans, occasional small electrical heaters and occasionally misters thus the area is very quiet..

Our home is on a double lot in a low density residential neighborhood.

These small monkeys are not noisy and nobody visiting the house has ever been aware that we even have them unless we told them so. We do not intend to have any signage or other external indicators whatsoever. Because the cages are housed on a screened lanai, they are well away from the perimeter fence / boundaries and escape is not an issue.

We will not have any customers, staff or anyone else attend the house in relation to the business in any way - other than the veterinary. We will complete our transactions online and deliver animals to mutually arranged locations such as the client's home.

No additional vehicles will be used for the business, we will use our personal transport to deliver the animals.

We have registered MonkeyBusinessSWFL LLC as the business entity and are obtaining a Charlotte County Business Tax Receipt, which we have been told to do after receiving this approval.

To whom it may concern:

I am the veterinarian of record for Monkey Business, LLC. I have been working with Mr. and Mrs. Gunn's animals since March 2014. I can testify first hand that the care they provide for the monkeys is second to none. Their facilities are impeccably clean and orderly. The monkeys are very happy in their enclosures with all types of ropes, hide boxes, ladders and foraging toys. They are very quiet. Going to the Gunn residence, you would not notice that they even housed monkeys.

The Gunn's have been very accepting of all my medical and preventative recommendations. They have a separate isolation area for new monkeys. This is very important in order to control any potential spread of disease. They are also very keen on each of the Monkey's peculiarities and behaviors. This makes them adept at spotting the very first sign of illness. Since my involvement with Monkey Business, LLC, I am happy to report that I've yet to see a sick Monkey.

I am happy to say that the Gunn's are very particular about making sure they meet or exceed all the requirements mandated by the state. They keep all of their documents updated and readily available as needed.

If you have any questions or concerns, feel free to contact me.

Sincerely,

Alexander Villarreal, DVM

## MEMORANDUM

**DATE:** July 8, 2015  
**TO:** Ken Quillen, Planner III  
**FROM:** Jamie Scudera, Environmental Specialist  
**SUBJECT:** SE-15-004, Home Occupation, 396 Barger Drive

The Zoning Environmental Review Section has conducted a cursory review (additional wildlife or environmental reviews may be required by state or federal agencies) of the above referenced petition for compliance with Environmental, Tree and Landscaping codes or ordinances and offers the following comments:

- ❖ The site consists of an existing developed single family residence.

If this petition is approved, the following conditions will be reviewed for compliance upon Site Plan Review (if required) and the issuance of any county permit or land improvement activities:

# PROGRAM OF VETERINARY CARE INSTRUCTIONS

- \*The enclosed Program of Veterinary Care (PVC) should be completed and signed by your attending veterinarian and must be signed by you.
- \*Keep the properly completed PVC as part of your records that will be reviewed by your USDA inspector.
- \*DO NOT send the completed PVC form to this office.
- \*You need a new PVC form only if you change your attending veterinarian.
- \*You need to update your PVC form and have it re-signed by your attending veterinarian any time you add a new species of animal to your facility or make any other changes in the veterinary care you are providing.
- \*This sheet may be used as a means to document your attending veterinarian's visit to your facility. If you choose to use it for that purpose, have your attending veterinarian sign and date this sheet during each visit to your facility. This sheet should be kept with your PVC.
