

SOUTH GULF COVE COMMUNITY PLAN ADVISORY COMMITTEE
SGC ENTRYWAYS RIBBON CUTTING MINUTES
December 4, 2010

Sandy Slater, Kendall Leach, Barbara Holmes, April Chattinger and Dorli Hausermann were in attendance. Commissioner Skidmore, Commissioner Starr, Commissioner Duffy, and SGC Entryways Project Manager Barry Cohen attended from Charlotte County. Approximately 100 SGC residents and guests attended.

The ribbon cutting began at 10:00 a.m. at the San Domingo and CR771 SGC entryways sign followed by a reception donated and hosted by community volunteers, and located at the adjacent model home.

The SGC Advisory Committee hosted this event to recognize the SGC community and the support received over the past six years pursuing construction of our four entryways.

Sandy welcomed everyone and introduced the Commissioners, team members and speakers. She announced that the project history over the past six years, and the many volunteers and partners who worked on the various SGC entryway teams, were included in the SGC entryways ribbon cutting program. She concluded the program at approximately 9:45 a.m. emphasizing that the entryway project is another large step toward making SGC a premier waterfront community, and another great example of what is possible when communities and the County team together to make things happen.

Most attendees joined the reception that adjourned at approximately 11:00 a.m.

The ribbon cutting program is included with these minutes.
