Please describe your intentions and attach a signed & sealed survey that details exactly how the proposed split will appear: _____

Applicant's signature _____ Date _____

Health Department Approval: _____ Health Department Rejection: _____
(Signature & Date) (Signature & Date)

Charlotte County allows certain land splits to be exempt from the Subdivision Regulations. However, any proposed split requiring the creation of more than two lots must go through the subdivision process. Zoning Division staff can provide information related to building code requirements.

To qualify, it is up to the property owner to verify the following:

1. The land has not been previously divided since February 1, 1992.
2. Any newly created parcels must meet all other provisions of Charlotte County Code, particularly lot size, lot width, setbacks and actual road frontage of at least 50 feet (20' for flag lots only). Easements do not qualify as road frontage.
3. You must be certain there are no variances, easements or other restrictions which might prevent the split of such land.

YOU MUST PROVIDE A CURRENT SIGNED & SEALED SURVEY WITH THIS APPLICATION THAT DEPICTS EXACTLY HOW THE PROPOSED SPLIT IS INTENDED. ANNOTATING AN EXISTING SURVEY IS NOT ALLOWED.

Split or subdivision of properties not in compliance with Charlotte County Regulations shall be deemed non-conforming and NO permits will be issued for improvements thereon until the non-conformity is corrected.

DO NOT WRITE BELOW THIS POINT

The area below for staff comments ONLY

Current Zoning: _____
 Future Land Use: _____ Urban Service Area: YES NO
