Project Description/Site Plan

Type of project proposed (*e.g.*, vegetation clearing, single-family residence, pool):

Size of the area, in square feet, to be cleared for proposed project:

Describe the vegetation present on the project site. Common names are acceptable.

Are there scrub oaks present? Yes _____ No _____

Describe the vegetation that will remain after construction. We encourage preservation of scrub oaks when possible, or replacement of them elsewhere on lot if preservation is not possible. We recommend planting 4 scrub oaks per 0.25 acre.

Will you be planting scrub oaks after construction? Yes _____ No _____

On the back of this sheet or on a separate sheet include a sketch or plans showing the location of the project on the lot.

Photographs of Lot

Photographs from each corner of lot looking into lot.

Label each picture with:

- compass direction from which picture was taken (*e.g.*, picture was taken from the north corner of the lot)
- applicant’s name
- address or PID

Location map

Identify the location of your lot within the county. Include major street names. (This can be obtained from county web site or other internet map sites.)

Aerial Photo

Include the most recent aerial photograph of your lot and adjacent surrounding lots. (This can be obtained from the county web site.)

Proof of Intent to Build

Have you already applied for a building permit for this lot?

Yes _____ No _____

If so, what is the permit application number? _____

If you have not yet applied for a building permit, we will review the package and contact you with the results. Because habitat alteration in preparation for building is the activity that has the potential to harm scrub-jays, we will **only** send a release letter (if applicable) to the county or city when we have proof that a building permit application has been submitted to the county or city and placed on hold.

Please read and sign the following statements. These agreements are designed to expedite the review process.

I give employees of the U.S. Fish and Wildlife Service permission to come onto my property in order to observe site conditions and scrub-jay use of the property.
