

## Burnt Store Colony Water & Wastewater Improvements

**June 21, 2011**

As per the Agreement with the Burnt Store Colony RO Association, Inc, the Utility will perform the project design, construction improvements and implementation activities to assume responsibility for the existing on-site wastewater collection facilities and render wastewater services to the 240-unit mobile home community, including community on-site amenities by January 1, 2012. Other project activities will include minor upgrades to the water distribution system, and new water services and meters to individual units within the community.
