December 8, 2015 (Date revised from 2016 to 2015)

Dear Property Owner:

The Utilities Department is announcing that on January 4, 2016 necessary work will begin for the West Tarpon/Ambrose Project within the Parkside Redevelopment Area. Andrew SiteWork LLC, will begin construction as the hired contractor on replacement and repairs to the utility system located in your neighborhood. These enhancements are necessary to address aged infrastructure and help manage capacity increases as more customers will be coming online to the system from the East and West Spring Lakes Wastewater Expansion Program. A work zone map is attached for your reference.

For approximately twelve months, construction improvements will occur in your neighborhood involving installing a sewer force main, a reclaimed water main, the replacement of portions of the existing gravity sanitary sewer system and asbestos-cement potable water mains, and replacement of an existing lift station.

Every effort will be made to lessen the impact for you and your neighbors. Work times will be 7:00 a.m. to 7:00 p.m. Monday through Friday. On rare occasions, the crews may work longer to help restore services. You will notice construction vehicles, louder than normal noises, dust and dirt, and additional traffic and road detours. The contractor will provide more specific timelines on activities as the project progresses.

We apologize in advance for the challenges this may cause you. We will have a Utility Department Engineering Inspector on the site helping to oversee the project. If you have any questions, comments, or concerns, we are here to help you. Please email administrative.assistants@charlottecountyfl.gov or call 941.764.4300 ext 3. You can leave a message and someone will reach out to you within 24 business hours. We invite you to follow the project on our Facebook Page, as well at www.CharlotteCountyFL.gov "Utilities (Water & Sewer)".

Sincerely,
