Re: El Jobean East Sewer Expansion Project – Phase 1

Dear Property Owner:

Your property is in the first phase of the El Jobean East Sewer Expansion Project. Charlotte County Utilities will be starting to connect homes in your neighborhood during Spring 2021 to the County's sewer system and requires the enclosed Installation Agreement and Septic Tank Location Form.

Charlotte County Utilities, or its approved contractors, will be disconnecting your current system, abandoning your septic tank, and connecting your home to the sewer system line installed during the construction phase of the project.

The costs for disconnection, abandonment, and connection to the newly installed sewer line, when performed by Charlotte County or its contractor, has been included in your MSBU assessment fee.

Please fill out, sign, and mail the enclosed Installation Agreement and Septic Tank Location Form to:

Syndi Merriman, Project Coordinator
Charlotte County Utilities – Capital Projects Office *or via email to: S2S@charlottecountyfl.gov*
25550 Harbor View Rd., Suite 3
Port Charlotte, FL 33980
(941) 764-4305

We will work hard to keep you apprised of the progress and when we may begin work in your immediate area. Thank you in advance for your patience while we are in your neighborhood. We look forward to serving you.

Sincerely,

Utilities Capital Projects Team
El Jobean S2S
