

**MEETING MINUTES**  
**CHARLOTTE RANCHETTES STREET & DRAINAGE ADVISORY BOARD**  
**JULY 23, 2013 – Special Meeting**  
**1:00 p.m. – 6405 Austrian Blvd.**

**Attendees:**

**Board:** Chuck Rinehart, Nigel Morris, Doug Buuck, David Choken, Prairie Piercefield.

**Public:** Sally Buuck, David Mackie, Ruth Cudzilo, Betty Richardson, Curt Richardson

The meeting was called to order by Chairman Chuck Rinehart at 8:30 a.m. It was noted that a quorum was present.

**Business:**

Additional Agenda Item

- Ditch Maintenance - Nigel Morris advised the meeting attendees that Sherri Fields, the property owner at 9226 Swiss Blvd. located on Alligator Creek, had contacted Dawn Harrison. Sherri was upset that damage to Gopher Tortoise burrows in the easement had resulted from the equipment operator entering the creek from Swiss Blvd. to continue mulching vegetation under the South County Storm Water MSBU program for this year. Dawn had given her Nigel's name and stated that this board had requested the work. Nigel wished to correct the record to the effect that this board had merely requested a report on the proposed activity under the SCSW MSBU and had been advised at its last meeting that the cleaning of the North Prong of Alligator Creek was part of this year's program. Extensive discussion ensued on the possible implications of this situation on the ongoing SCSW MSBU work program and Nigel agreed follow up with both Sheri and County staff to facilitate resolution of the matter.

Regular Agenda

- Additional Road Work – Board members presented maps of necessary repair work for their respective areas of responsibility. A composite map of all the work was prepared which the Chairman delivered to Tim Free immediately following the meeting.

**Member Comments:** None.

**Public Comments:** During discussion of proposed additional road work, David Mackie opined that the use of 57 stone for filling in pot holes would not be effective unless shell material was incorporated. The Chairman advised that when he delivered the final map to Tim Free, he would request that this issue be adequately addressed by the contractor.

**Adjournment:** The members unanimously agreed to adjourn at 9:45 a.m.
