  - A Concept Plan of an appropriate scale showing the existing and proposed placement of structures, provisions for ingress and egress, off-street parking and loading areas, refuse and service areas, landscape buffers, required yards and other spaces. If the Concept Plan is larger than 11” x 17”, 12 folded copies must be submitted.

**Process:**

- All applications will be reviewed for sufficiency by staff. The applicant will be notified in writing within ten days if the application is sufficient or insufficient. If insufficient the letter will state what is needed to make the application sufficient and complete.
- When the application is sufficient the application will be reviewed by the Zoning Official who will make their decision to approve, approve with conditions, or deny the requested administrative variance. If approved the Zoning Official will send a letter to adjacent property owners notifying them of the intention to grant the requested variance. Adjacent property owners will have 15 days to file a written objection and request a public hearing before the BZA.
- If there are any valid objections, then the application will be scheduled for a public hearing at the next available Board of Zoning Appeals meeting.
- If a public hearing is required before the Board of Zoning Appeals, the BZA will make the final decision.
- The applicant will receive a final decision letter as well as a copy of the recorded Notice of Approval. Any aggrieved party who wishes to appeal the final decision of the Zoning Official or the Board of Zoning Appeals must file an appeal with a court of competent jurisdiction within 30 days from the date on the decision letter.

Approval Criteria for Variances:

Section 3-9-6.3(i) - Approval Criteria for Variances.

“A variance shall be granted by the Board of Zoning Appeals only if all of the following Approval Criteria for Variances are found to exist:”

(1) Unique or peculiar conditions or circumstances exist, which relate to the location, size and characteristics of the land or structure involved, and are not generally applicable to other lands or structures.

(2) The strict and literal enforcement of the zoning section of the Land Development Regulations would create an undue hardship as distinguished from a mere inconvenience on the property owners. Physical handicaps or disability of the applicant and other considerations may be considered where relevant to the request.

(3) The granting of a variance would not be injurious to or incompatible with contiguous uses, the surrounding neighborhood, or otherwise detrimental to the public welfare.

(4) The condition giving rise to the requested variance has not been created by any person presently having an interest in the property and the conditions cannot reasonably be corrected or avoided by the applicant.

(5) The requested variance is the minimum modification of the regulation at issue that will afford relief.

Section 3-9-6.3(I) - Administrative Variances:

“If the variance requested is for relaxation of the minimum development standards of no more than ten percent of the requirements or one foot, whichever is greater, the owner may request that the Zoning Official grant an administrative variance. If, upon proper investigation, the administrative variance is not found to be harmful to adjoining land uses or adverse to the public interest, the Zoning Official may proceed to grant the administrative variance after the (appropriate) procedure is completed and no written objection is received from an adjoining property owner within the time period specified. The Zoning Official shall review the application for sufficiency, which includes completeness of the application and consistency with the Comprehensive Plan, Code of Ordinances, and these Land Development Regulations.”
