

# How Does The Flicker of Life Work?

The Flicker of Life is easy to use.

1. Unscrew the light bulb in your out door porch light.
2. Insert the Flicker of Life socket, just as you would screw in a light bulb.
3. Screw in your light bulb.
4. Your inside light switch can remain in the "ON" position because the Flicker of Life contains a sensor that will turn the light on at dusk and shut the light off at dawn.
5. Flick the inside light switch twice to activate the Flicker of Life light into the "flashing mode" in an emergency. The light will continue to flash for 20 minutes, or until turned off.

In An  
Emergency**

# In An Emergency Every Second Counts!

Whether a fire, medical, or law enforcement emergency, the Flicker of Life helps emergency workers find the way to your door.

**Charlotte County Sheriff's Office**

**Charlotte County Fire/EMS**

The Flicker of Life allows you to use your light as you normally do until an emergency occurs.

When an emergency occurs, after calling 911, turn the light switch off and then back on, this will cause the light to flash on and off non stop for 20 minutes.

The Flicker of Life can be used as a security light; it has a light sensor so you can leave the light switch in the "ON" position. The light will automatically come on at dusk and shut off at daylight.

## **Do You Know About the Red Dot Medical Information Program?**

Charlotte County Fire/EMS and Charlotte County Sheriff's Office recognize the challenge of preparing for an emergency and that's why the **Red Dot Medical Information Program** was created. Information is not only extremely helpful in medical emergencies but when a call is made to law enforcement as well. This quick and easy **Red Dot Medical Information Form** is filled out before an emergency occurs. To find out more about the **Red Dot Medical Information Program**, contact either Charlotte County Sheriff's Office or Fire/EMS.
