AN ORDINANCE OF THE BOARD OF COUNTY COMMISSIONERS OF CHARLOTTE COUNTY, FLORIDA, PURSUANT TO SECTION 163.3184(3), FLORIDA STATUTES, AMENDING THE POTABLE WATER AND SANITARY SEWER (WSW) SUBELEMENT OF THE INFRASTRUCTURE ELEMENT TO UPDATE THE WATER SUPPLY FACILITIES WORK PLAN; TO AMEND ICE POLICY 1.1.11: COORDINATION WITH WATER MANAGEMENT DISTRICTS TO REFERENCE THE ADOPTED WATER MANAGEMENT DISTRICT REGIONAL WATER SUPPLY PLANS; AND TO AMEND CIE POLICY 1.1.8: FINANCIALLY FEASIBLE CIE SCHEDULE TO REMOVE A REFERENCE TO DELETED CHAPTER 9J-5, F.A.C.; PETITION NO. PA-14-10-14-LS; APPLICANT: BOARD OF COUNTY COMMISSIONERS OF CHARLOTTE COUNTY, FLORIDA; PROVIDING FOR SEVERABILITY; PROVIDING FOR TRANSMITTAL OF ADOPTED ORDINANCE; AND PROVIDING AN EFFECTIVE DATE.

RECITALS

WHEREAS, the purpose of the Water Supply Facilities Work Plan (WSFWP) is to ensure that all existing and future residents of Charlotte County ("County") have adequate supplies of potable water through the established planning period; and

WHEREAS, the County's WSFWP is a required component of the County's Comprehensive Plan, established by Chapter 163.3167, Florida Statutes, to address "the water supply sources necessary to meet and achieve the existing and projected water use demand for the established planning period"; and

WHEREAS, the WSFWP is not a separate element of the County's Comprehensive Plan, but is made up of four Goals, seven Objectives, and 20 Policies in

1 the Potable Water and Sanitary Sewer subelement of the Infrastructure Element, the
2 Intergovernmental Coordination Element, and the Capital Improvements Element; and

3 WHEREAS, pursuant to Chapter 163.3167, Florida Statutes, the County's
4 Comprehensive Plan must be updated following the updates to the local Water
5 Management Districts (WMDs)' regional water supply plans; and

6 WHEREAS, the Potable Water and Sanitary Sewer Data and Analysis was
7 updated to reflect new population projections, and these projections were compared to the
8 WMDs' population projections; and

9 WHEREAS, the new population projections show that the County has
10 adequate potable water supplies through the planning horizon of 2030 and the vision
11 horizon of 2050; and

12 WHEREAS, the Objectives and Policies related to the WSFWP set forth in
13 the County's Comprehensive Plan need to be updated to clarify and remove outdated
14 references; and

15 WHEREAS, this proposed text amendment is also part of the County's
16 Comprehensive Plan revisions determined to be necessary in an Evaluation and Appraisal
17 review sent to the Department of Economic Opportunity ("DEO") in March of 2014; and

18 WHEREAS, on May 11, 2015, Petition PA-14-10-14-LS was heard by the
19 Planning and Zoning Board ("P&Z Board") and, based on the findings and analysis
20 provided by County Staff regarding the amendments and the evidence presented to the
21 P&Z Board, the proposed amendment has been recommended for approval by the P&Z
22 Board to be transmitted to DEO for review and comments; and

1 WHEREAS, on May 12, 2015, Petition PA-14-10-14-LS was heard by the
2 Board of County Commissioners of Charlotte County, Florida (“Board”) and, based on the
3 findings and analysis provided by County Staff regarding the amendments and the
4 evidence presented to the Board, was approved for transmittal to DEO for review and
5 comments; and

6 WHEREAS, on July 22, 2015, DEO issued a letter stating that it
7 had no comments regarding Petition PA-14-10-14-LS; and

8 WHEREAS, other relevant state agencies also reviewed Petition
9 PA-14-10-14-LS and had no comments; and

10 WHEREAS, after due consideration regarding Petition PA-14-10-14-LS and
11 the analysis and evidence presented to the Board, the Board has found the proposed
12 amendment is in the best interests of the health, safety, and welfare of the County and the
13 future the County envisions and desires for itself.

14 NOW, THEREFORE, BE IT ORDAINED by the Board of County
15 Commissioners of Charlotte County, Florida, that:

16 Section 1. Adoption of the Amendment to the County’s Water Supply
17 Facilities Work Plan (WSFWP), including amendments to the Potable Water and Sanitary
18 Sewer (WSW) subelement of the Infrastructure Element, the Intergovernmental
19 Coordination (ICE) Element, and the Capital Improvements (CIE) Element of the County’s
20 Comprehensive Plan. The County’s Water Supply Facilities Work Plan (WSFWP),
21 including amendments to the Potable Water and Sanitary Sewer (WSW) subelement of the
22 Infrastructure Element, the Intergovernmental Coordination (ICE) Element, and the Capital

1 Improvements (CIE) Element of the County's Comprehensive Plan, is hereby amended by
2 the deletion of the strike through language and addition of the underlined language as
3 provided in Exhibit "A," which is attached hereto and by reference made a part hereof be
4 and the same is hereby adopted.

5 Section 2. Severability. If any section, subsection, clause, phrase, or
6 provision of this ordinance or its accompanying County's Comprehensive Plan element is
7 for any reason held invalid or unconstitutional by any court or body of competent
8 jurisdiction, such holding shall not be construed to render the remaining provisions of this
9 ordinance or its accompanying County's Comprehensive Plan element invalid or
10 unconstitutional.

11 Section 3. Transmittal of Adopted Ordinance. County staff is hereby directed
12 to forward a copy of this ordinance and any attachments to the Department of Economic
13 Opportunity, 107 East Madison Street, Tallahassee, FL 32399-4120, and to the Executive
14 Director, Southwest Florida Regional Planning Council, 1926 Victoria Avenue, Fort Myers,
15 FL 33901.

16 Section 4. Effective Date. The effective date of this plan amendment, if the
17 amendment is not timely challenged, shall be 31 days after the state land planning agency
18 notifies the local government that the plan amendment package is complete. If timely
19 challenged, this amendment shall become effective on the date the state land planning
20 agency or the Administration Commission enters a final order determining this adopted
21 amendment to be in compliance. No development orders, development permits, or land
22 uses dependent on this amendment may be issued or commence before it has become

1 effective. If a final order of noncompliance is issued by the Administration Commission,
2 this amendment may nevertheless be made effective by adoption of a resolution affirming
3 its effective status, a copy of which resolution shall be sent to the state land planning
4 agency.

INFRASTRUCTURE - POTABLE WATER AND SANITARY SEWER GOALS, OBJECTIVES AND POLICIES

PURPOSE

The purpose of the Potable Water and Sanitary Sewer section of the Infrastructure element is to ensure that potable water supplies and sanitary sewer disposal service are available to support development through the planning horizons established within the Comprehensive Plan. The provision of potable water and sanitary sewer is mandated by Florida growth management legislation under Chapter 9J-5 of the *Florida Administrative Code*. ~~And the specific parameters for this particular element are based on criteria established pursuant to Rule 9J-5.011. This section of Chapter 9J-5 Florida Statute, which~~ requires that sewer and water services be provided in accordance with future land use projections and also identifies a basic framework for developing a series of goals, objectives, and policies which are formulated to accomplish the desired purpose based on an analysis of available data.

The availability of sewer and water will influence the timing, location, and intensity of development. Planning for the extension of these services should therefore be considered an integral part of Charlotte County's development strategy. In order for the County to effectively utilize infrastructure expansion as a legitimate growth-management tool, this section incorporates a prioritization for providing facilities to areas targeted for new growth based upon Smart Growth principles established in the Future Land Use element. This will ensure that centralized potable water and sanitary sewer facilities are provided concurrently with future development, that utility infrastructure is directed towards those areas of the County where it is most appropriate, and that adequate facility capacity will be available to maintain adopted level of service standards.

All references to any ordinances, statutes or regulations contained herein shall, unless otherwise noted, be deemed to be those in effect as of the date of adoption of this element and thereafter as amended, renumbered or otherwise revised.

WSW Policy 1.2.1: Reporting

The County shall require all utility providers to provide the Charlotte County ~~Growth Management~~ Community Development Department, or its successor agency, with monthly Florida Department of Environmental Protection (FDEP) reports of total capacity and facility demand to ensure that the adopted LOS standards are maintained and the Concurrency Management System is up to date.

WSW Policy 2.1.3: Neighborhood Framework

The County shall encourage the extension of central potable water and sanitary sewer services in a manner consistent with FLU Goal 4: Smart Growth Concept Plan Implementation – Neighborhood Protection and Enhancement.

EXHIBIT A

WSW Policy 2.1.4: Utility Extensions through the Rural Service Area

The County shall only allow transmission lines for potable water or sanitary sewer service to be extended through the Rural Service Area if it is to provide service to lands located within the Urban Service Area. The County shall not allow distribution or connection lines to expand from a transmission line extended through the Rural Service Area except to address situations where the public health, safety, and welfare are in danger.

WSW Policy 3.1.1: Concurrent Utility Line Extensions

The County shall require all utilities that provide both centralized potable water and sanitary sewer service to extend potable water and sanitary sewer lines concurrently. Lines may be extended separately only if the service area is primarily composed of one type of service line and it is determined by the utility to ~~be non-feasible to require that~~ concurrent extensions is not feasible.

WSW Policy 3.1.2: Connection of Developed Property

Within the Urban Service Area, ~~the County shall require that~~ whenever centralized potable water or sanitary sewer service is made available to any developed property, the constructing utility may require the landowner ~~will~~to connect to the utility within one year of written notification by the utility provider. "Made available" means that the utility has adequate permitted capacity to serve the development and:

1. In the case of a potable water service, a utility line exists in a public easement or right-of-way that abuts a property and:
 - a. Is 100 feet or less from a residential lot, single or multi-family residence, or an establishment with an estimated water usage rate of 1,000 gallons per day or less.
 - b. Is 200 feet or less from an establishment with an estimated water usage rate of more than 1,000 gallons per day.
2. In the case of sanitary sewer service, as it is defined in Chapter 381.0065, F.S.

WSW Policy 3.1.7: Regional Joint Sanitary Sewer Systems

The County shall encourage:

1. Sanitary sewer disposal agreements whereby package treatment plants may be interconnected and replaced by treatment facilities with better economies of scale in order to achieve greater operating efficiencies; ~~or~~

The installation of on-site treatment and disposal systems that treat effluent to advanced sanitary sewer treatment standards.

WSW Policy 3.2.4: Certificated Areas and the Urban Service Area

The County shall not permit Certificated Service Areas to be expanded outside of the Urban Service Area, in accordance with **FLU Policy 3.2.5: Support Economic Viability of Agricultural Lands** and Special Provision 1(b) of the Rural Settlement Overlay District contained in FLU Appendix I.

WSW Policy 3.3.1: New Platted Lots and On-Site Septic Systems

The County shall require that new lots platted and intended to be served by an on-site septic system shall have a minimum lot area consistent with the requirements of ~~the more stringent of~~ Chapter 64E-6, *Florida Administrative Code (F.A.C.)* or local ordinance, whichever standard is higher.

WSW Policy 3.3.2: Community Utility Systems

The County may permit pre-manufactured treatment facilities designed and used to treat potable water and sanitary sewage at flows of 0.002 million gallons per day to 0.500 million gallons per day in small communities (package treatment plants) provided they are built to the standards specified by FDEP or the County, whichever is more stringent standard is higher.

WSW Policy 4.1.1: Wellhead and Wellfield Protection

The County shall protect wellheads and wellfields as established in **FLU Policy 2.3.5: Public Water System Wellhead Protection.**

WSW Policy 4.1.2: Hazardous Materials and Potable Water Supplies

The County shall not permit land uses in which hazardous materials (~~such as including, but not limited to,~~ petroleum products or chemical or biological wastes) are produced or stored, or land uses which may have an adverse impact on central potable water supplies for public consumption, in areas where their presence would adversely impact groundwater resources, recharge areas, or watersheds that drain into surface water supplies.

WSW Policy 4.2.9: Recycled Water Systems

The County shall require all new large developments to connect to recycled water supply systems for non-potable uses, when such systems are made available. "Made available" means that the recycled water utility has adequate capacity to serve the development and a functioning recycled water distribution main is located within 500 feet of the property or that it is cost effective for the utility to extend a recycled water distribution main to within 500 feet of the property. Individual single-family, duplex, or triplex buildings shall not be required to connect.

WSW Policy 4.2.10: Appropriate Water Quality for Use

The County shall require that non-potable water uses shall be met by recycled water supplies whenever possible. If recycled water sources are not available, non-potable water uses shall be met by groundwater sources.

WSW Policy 4.3.1: Adoption of Water Supply Facilities Work Plan

The County hereby adopts the Water Supply Facilities Work Plan, comprised of the specific Goals, Objectives, and Policies listed below and dated May 26, 2015, for a period of not less than ten years. The data and analysis that constitutes the Water Facilities Supply Work Plan is the Infrastructure Data and Analysis, Potable Water and Sanitary Sewer Water Supply Facilities Work Plan document. The Water Supply Facilities Work Plan addresses issues that pertain to water supply facilities and requirements needed to serve current and future development within the County's water service areas.

Infrastructure element

WSW Goal 1: Levels of Service

WSW Objective 1.1: LOS Standards

WSW Policy 1.1.1: LOS Applicability

WSW Policy 1.1.2: Potable Water LOS

WSW Policy 1.1.4: Effect of System Improvements on LOS

WSW Objective 1.2: Concurrency

WSW Policy 1.2.1: Reporting

WSW Policy 1.2.2: Development Approval

WSW Policy 1.2.3: Consultation with Service Providers

WSW Goal 4: Potable Water

WSW Objective 4.1: Potable Water Supplies

WSW Policy 4.1.1: Wellhead and Wellfield Protection

WSW Policy 4.1.2: Hazardous Materials and Potable Water Supplies

WSW Policy 4.1.3: Sewage Sludge Disposal

WSW Objective 4.3: Water Supply Facilities Work Plan

WSW Policy 4.3.1: Adoption of Water Supply Facilities Work Plan

WSW Policy 4.3.2: Plan Update Schedule

WSW Policy 4.3.3: Plan Coordination

WSW Policy 4.3.4: Inclusion of Capital Improvements

Capital Improvements element

CIE Goal 1: Timely Development of Infrastructure

CIE Objective 1.1: Making Necessary Improvements

CIE Policy 1.1.6: Concurrency Management System

CIE Policy 1.1.7: Capital Improvements Program

CIE Policy 1.1.8: Financially Feasible CIE Schedule

CIE Policy 1.1.9: Agency and Plan Coordination

Intergovernmental Coordination element

ICE Goal 1: Intergovernmental Coordination

ICE Objective 1.1: Implementation Coordination

ICE Policy 1.1.9: Utility Coordination

ICE Policy 1.1.11: Coordination with Water Management
Districts

ICE Objective 1.2: Level of Service (LOS)

ICE Policy 1.2.3: Water Management

WSW Policy 4.3.3: Plan Coordination

The County shall coordinate revisions to the Water Supply Facilities Work Plan with the South Florida Water Management District, the Southwest Florida Water Management District, the Florida Department of ~~Community Affairs~~Economic Opportunity, and the potable water suppliers serving residents of the County.

INTERGOVERNMENTAL COORDINATION – GOALS, OBJECTIVES AND POLICIES

ICE Policy 1.1.11: Coordination with Water Management Districts

The County shall coordinate with the appropriate Water Management Districts through their Regional Water Supply Plans Southwest Florida Water Management District through its adopted 2010 Regional Water Supply Plan for the Southern Planning Region and the South Florida Water Management District through its adopted 2012 Lower West Coast Water Supply Plan Update in the development of the County's 10-year Water Supply Facilities Work Plan.

CAPITAL IMPROVEMENTS – GOALS, OBJECTIVES AND POLICIES

CIE Policy 1.1.8: Financially Feasible CIE Schedule

The County shall develop a financial plan, pursuant to 163.3177(3), F.S., which is financially feasible per 163.3164(32), F.S. over a five year planning period. The Schedule shall provide that the necessary improvements are funded to ensure that: existing deficiencies are corrected, future growth is accommodated, and obsolete or worn-out facilities are replaced so that LOS standards are maintained pursuant to 163.3177(2), F.S. and ~~9J-5.0055(1)(b)~~, F.A.C.. This financial plan shall be called the Concurrency Related Capital Improvements Schedule or CIE Schedule. The CIE Schedule is hereby adopted and is found in CIE Appendix II.
