# CDC Guidance

## When to Stay Home

### Calculating Quarantine

The date of your exposure is considered day 0. **Day 1 is the first full day after your last contact with a person who has had COVID-19.** Stay home and away from other people for at least 5 days. [Learn why CDC updated guidance for the general public.](#)

**IF YOU**  
Were exposed to COVID-19 and are **NOT up to date** on COVID-19 vaccinations

**Quarantine for at least 5 days**

#### Stay home

Stay home and [quarantine](#) for at least 5 full days.

Wear a [well-fitting mask](#) if you must be around others in your home.

[Do not travel.](#)

#### Get tested

Even if you don't develop symptoms, [get tested](#) at least 5 days after you last had [close contact](#) with someone with COVID-19.

**No quarantine**

You do not need to stay home [unless](#) you develop symptoms.

#### Get tested

Even if you don't develop symptoms, [get tested](#) at least 5 days after you last had [close contact](#) with someone with COVID-19.

**IF YOU**  
were exposed to COVID-19 and had confirmed COVID-19 within the past 90 days (you tested positive using a viral test)

**No quarantine**

You do not need to stay home [unless](#) you develop symptoms.

**After quarantine**

Watch for [symptoms](#)

Watch for symptoms until 10 days after you last had close contact with someone with COVID-19.

#### Avoid travel

It is best to [avoid travel](#) until a full 10 days after you last had close contact with someone with COVID-19.

**If you develop symptoms**

[Isolate](#) immediately and [get tested](#). Continue to stay home until you know the results. Wear a [well-fitting mask](#) around others.

**Watch for symptoms**

Watch for [symptoms](#) until 10 days after you last had close contact with someone with COVID-19.

**If you develop symptoms**

[Isolate](#) immediately and [get tested](#). Continue to stay home until you know the results. Wear a [well-fitting mask](#) around others.

**Watch for symptoms**

Watch for [symptoms](#) until 10 days after you last had [close contact](#) with someone with COVID-19.

**If you develop symptoms**

[Isolate](#) immediately and [get tested](#). Continue to stay home until you know the results. Wear a well-fitting mask around others.

**Take precautions until day 10**

**Wear a well-fitting mask**

Wear a [well-fitting mask](#) for 10 full days any time you are around others inside your home or in public. Do not go to places where you are unable to wear a well-fitting mask.

**If you must travel during days 6-10, take precautions.**

**Avoid being around people who are more likely to get very sick from COVID-19.**

**Take precautions until day 10**

**Wear a well-fitting mask**

Wear a [well-fitting mask](#) for 10 full days any time you are around others inside your home or in public. Do not go to places where you are unable to wear a well-fitting mask.

**Take precautions if traveling**

**Avoid being around people who are more likely to get very sick from COVID-19.**

**Take precautions until day 10**

**Wear a well-fitting mask**

Wear a [well-fitting mask](#) for 10 full days any time you are around others inside your home or in public. Do not go to places where you are unable to wear a well-fitting mask.

**Take precautions if traveling**

**Avoid being around people who are more likely to get very sick from COVID-19.**

### Calculating Isolation

Day 0 is your first day of symptoms or a positive viral test. **Day 1 is the first full day after your symptoms developed or your test specimen was collected.** If you have COVID-19 or have symptoms, isolate for at least 5 days.

**IF YOU**  
Tested positive for COVID-19 or have symptoms, regardless of vaccination status

**Stay home for at least 5 days**

Stay home for 5 days and [isolate](#) from others in your home.

Wear a [well-fitting mask](#) if you must be around others in your home.

[Do not travel.](#)

**Ending isolation if you had symptoms**

[End isolation after 5 full days](#) if you are fever-free for 24 hours (without the use of fever-reducing medication) and your symptoms are improving.

**Ending isolation if you did NOT have symptoms**

[End isolation after at least 5 full days](#) after your positive test.

**If you got very sick from COVID-19 or have a weakened immune system**

You should isolate for at least 10 days. [Consult your doctor before ending isolation.](#)

**Take precautions until day 10**

**Wear a well-fitting mask**

Wear a [well-fitting mask](#) for 10 full days any time you are around others inside your home or in public. Do not go to places where you are unable to wear a mask.

**Do not travel**

[Do not travel](#) until a full 10 days after your symptoms started or the date your positive test was taken if you had no symptoms.

**Avoid being around people who are more likely to get very sick from COVID-19.**

# CDC Healthcare Worker Guidance

## Work Restrictions for HCP With SARS-CoV-2 Infection and Exposures

"Up to Date" with all recommended COVID-19 vaccine doses is defined in [Stay Up to Date with Your Vaccines | CDC](#)

For more details, including recommendations for healthcare personnel who are immunocompromised, have severe to critical illness, or are within 90 days of prior infection, refer to [Interim Guidance for Managing Healthcare Personnel with SARS-CoV-2 Infection or Exposure to SARS-CoV-2](#) (conventional standards) and [Strategies to Mitigate Healthcare Personnel Staffing Shortages](#) (contingency and crisis standards).

### Work Restrictions for HCP With SARS-CoV-2 Infection

Vaccination Status	Conventional	Contingency	Crisis
Up to Date and Not Up to Date	10 days OR 7 days with negative test <sup>†</sup> , if asymptomatic or mild to moderate illness (with improving symptoms)	5 days with/without negative test, if asymptomatic or mild to moderate illness (with improving symptoms)	No work restriction, with prioritization considerations (e.g., types of patients they care for)

### Work Restrictions for Asymptomatic HCP with SARS-CoV-2 Exposures

Vaccination Status	Conventional	Contingency	Crisis
Up to Date	No work restrictions, with negative test on days 1 <sup>‡</sup> and 5-7	No work restriction	No work restriction
Not Up to Date	10 days OR 7 days with negative test <sup>†</sup>	No work restriction with negative tests on days 1 <sup>‡</sup> , 2, 3, & 5-7 (if shortage of tests prioritize Day 1 to 2 and 5-7)	No work restrictions (test if possible)

<sup>†</sup>Negative test result within 48 hours before returning to work

<sup>‡</sup>For calculating day of test: 1) for those with infection consider day of symptom onset (or first positive test if asymptomatic) as day 0; 2) for those with exposure consider day of exposure as day 0
